Ohio Decision Framework Needs Assessment

Ohio Department of Education

Topic: Using Student Achievement Data to Support Instructional Decision Making

The Ohio Department of Education's (ODE) unified state system of support is directly focused on improving students' academic achievement. As part of the state system, the four-stage Ohio Improvement Process (OIP) helps districts build capacity for sustained improvement, beginning with collecting and analyzing data in a comprehensive needs assessment. This sample material is a compilation of screen shots of the Ohio Decision Framework tool that district leadership teams use to compile relevant data.

The tool includes a Quick Start Guide, a User's Manual, and links to additional resources to guide teams through the data collection and input process. The ODE provides the tool online linked to district assessment data from the state data warehouse. The district leadership team can view charts and graphs of subject-area and subgroup proficiencies, select areas of concern and disaggregate results by building, and identify high-priority areas. There are data fields to choose the district implementation level of an aligned, standards-based curriculum, from which the system presents an implementation percentage. Based on the information input

from the district team, the system produces a report identifying primary areas of concern across subject areas, curriculum implementation, and expectations and conditions.

As states seek to develop and refine their systems of support, this tool may highlight key areas to address in designing a needs assessment.

This Needs Assessment has been generated using your selections throughout the Decision Framework and the Profile page. An additional text area is included for you to add any additional thoughts not covered by the generated Needs Assessment.

Concern: KRA-L

Concern: READING

-Focus on subscales: Informational Text, Reading Process

-High Concern: Students with Disabilities, Economically Disadvantaged

-Curriculum

*Textbook / Materials

-Low Informational Text Implementation: K, 1

-Low Reading Process Implementation: K, 1

-Assessment

*General Assessment Practices: Medium implementation

-Instructional Practice

*Alignment with standards: High Alignment with standards

*Student engagement & support: Medium Student engagement & support

-Professional Development

*Application/Impact of Knowledge/Skills Learned through HQPD: Medium implementation

Concern: MATHEMATICS

-Focus on subscales: Algebra, Number Sense

-High Concern: Students with Disabilities, Economically Disadvantaged

-Curriculum

-Assessment

*General Assessment Practices: Medium implementation

-Instructional Practice

*Alignment with standards: High Alignment with standards

*Student engagement & support: High Student engagement & support

-Professional Development

*Application/Impact of Knowledge/Skills Learned through HQPD: Medium implementation

Concern: Expectations and Conditions

-Leadership

*Instruction & the Learning Process: Medium implementation

*Community Engagement Process: Medium implementation

-School Climate (Level of Concern)

*Student Discipline Occurrences: Medium overall concern

with High concern for 5, 6, 7, SWD, Male

*Student Attendance: Medium overall concern

with High concern for SWD

-School Climate (Level of Implementation)

*Student Mobility: Low implementation

-Parent / Family Student Community Involvement

*Parent Participation and Perception: High implementation

*Student Participation and Perception: Medium implementation

-Resource Management

*Focus on Student Success: Medium implementation
