PROBLEM SOLVING: ACTION PLANNING TOOL

DISTRICT: SBCUSD

TOPIC (e.g., increased learning time): Ext. Learning Time

GOAL: Use the increase in learning time effectively.

CHALLENGE:

1. Getting right students and teachers
2. Using the time effectively

What can we apply from the lessons learned from other districts?

- Assessing how daily time is used
- Getting families involved
-

Do we have the resources and capacity to overcome our challenge and reach our goal? If not, how do we get there?

The biggest part of the challenge is to ensure that teachers use the increased time for effective instruction and collaboration through use of data on individual student needs.

What specific steps should we take to address the challenge(s)? By when do we need to complete them? And who is responsible for them?

Action	Timeline	Responsible Stakeholders
1. Increased monitoring of the increased learning time w/ designated benchmarks	On-going	- Turnaround office - Site Admin - SIG Monitors
2. Utilize our existing collaboration time to estab. focused instructional goals	weekly	- School Leadership Team - School PD team - SIG Monitors
3. Develop and implement evaluation protocols	Quarterly	- IT Dept - Turnaround office

How do we measure success?

Student achievement growth
